HotSpring®
Every day made better™
Limelight® Collection

Every Day Made Better™

What makes a Hot Spring® spa different? You. For more than 40 years we have been designing and building hot tubs that deliver The Absolute Best Hot Tub Ownership Experience™ for people just like you. We believe you deserve better massage, better water and better energy efficiency—every day. So we make it our mission to design and build the world's most innovative, energy-efficient hot tubs that are beautiful to look at and easy to care for and enjoy for many years.

A Hot Spring spa is your personal retreat—a makes-my-day ritual. It is a well of inspiration you can draw from any time, and a place to dissolve worries, aches and pains. This daily self-care routine helps you relax, rediscover yourself, revive your energy and connect with what matters most. In a Hot Spring spa, you will see your days, your nights and yourself in a whole new light.

Better Self

Our bodies are mostly water. Regular hot tubbing in a Hot Spring spa provides a unique sense of well-being and relaxation. Powerful, precise jets target and release tight muscles. Contoured seats position your body to enjoy a just-right massage. Here, you discover your best self.

Better Relationships

Me time and we time. You can have both. Whether you use your Hot Spring spa alone or with others, you will discover deeper connections and more meaningful conversations. This is your special place to reconnect and open up—you come here to strengthen your bonds. You will find that the benefits of spa time flow well beyond just your time in the water, filling your life with moments that fuel your best relationships.

Better Life

In your Hot Spring hot tub, you slow down to enjoy the natural world sometimes missed in the day-to-day rush. Here you can rediscover a starry summer night, a harvest moon, or falling leaves on an Autumn day. The rhythm of the seasons plays out every day, and time spent outside, immersed in the warm water of your Hot Spring spa, brings nature closer. This is where you find your best life.

What makes a Hot Spring spa better?

We have spent years perfecting features that you may never see or even think about, so that owning and enjoying your Hot Spring spa is worry-free. You can relax and focus on what matters most because we design every detail—from the seat contours, the jet pressure, and even how each light is placed—for your perfect hot tub experience.

"I have never slept so well, been so relaxed. Look forward to it everyday. Friends seem to like it too!"

— Limelight® Owner

The Limelight Collection

You want the very best for yourself and your family. You spend your money wisely and make the most of every minute. Your hot tub should live up to your high standards. But with so many choices out there, how do you find your perfect hot tub?

The Fountain of You

Meet the Limelight® Collection from Hot Spring®. These vibrant, inspiring spas are the ultimate wellness retreat you can enjoy every day and any time, with the added confidence of exceptional quality and industry-leading customer care.

What is more, powerful jets deliver an unparalleled and customisable massage experience. Innovative design makes these spas stand out from the crowd. And they are easy to use and maintain.

Backed by the quality, reliability and reputation of the number one brand in hot tubs, it is easy to see why a Limelight Collection spa is the best premium spa for quality and value.

HotSpring

Step Into the Limelight

Whether you prefer to soak at the break of dawn or under a star-filled sky, time spent in a Hot Spring® spa will help enrich your life. With more visual appeal, design innovation and interior room than ever, our Limelight® Collection spas are ideal for starting or ending your day refreshed and renewed.

The crisp, clean design opens to a spacious interior where each seat is shaped to follow the body's natural contours for added comfort and support. A variety of massage jets are carefully placed to provide full-body therapy. And its innovative, multi-point lighting system and full-length corner sconces create a truly special ambiance, whether you are soaking inside the spa or entertaining friends on the patio.

These hot tubs are built for years of enjoyment with premium materials, legendary Hot Spring attention to detail, quality construction, and backed by a comprehensive warranty. With best-in-class service and support, a Limelight Collection spa is everything you are looking for in a hot tub, from the leader in the industry.

The geometric lines of the Limelight Collection compliment a range of home styles, from contemporary to traditional. Inspired by outdoor design trends, the horizontal siding is modern yet timeless, and offered in a range of colours.

1. Sleek design inside and out

Crisp lines and subtle contours offer a fresh approach to spa design and a look that reflects Hot Spring quality and innovation.

2. Roomy, comfortable seating

Sculpted acrylic seats position your body to relieve stress and keep you in place while providing more interior space.

3. Durable cabinet

Long horizontal panels with a subtle wood grain effect give the spa siding a warm, contemporary look and timeless beauty. Built to endure the elements, the cabinet is backed by a five-year warranty.

4. Ready indicator light

One glance and you will know the spa is ready. It also provides service and maintenance diagnostics.

5. Accent lighting

Points of light in three sizes and full-length corner sconce lights illuminate the spa inside and out. Six colours, adjustable for brightness, create a calm to vibrant visual effect.

"The spa is comfortable and the massage is awesome."

— Limelight® Owner

Better Massage

After 40 years and more than a million hot tubs, we have perfected the process for creating a unique warm water massage experience. Lots of powerful jets mean nothing if they do not hit the right spot, with the right amount of therapeutic massage.

Hot Spring® spas are designed with seating and jets that work together, giving you a better massage experience that is precise and personalised to your preference.

Customisable massage

You have different needs on different days. Only Hot Spring has the Comfort Control™ system, which allows you to dial in the ideal amount of air and water for powerful hydromassage or just a soft touch—simply turn the jet face. An easy-to-reach diverter lets you control jet flow for a truly personalised experience with the SmartJet™ system.

Head to toe

Carefully placed jets target specific muscle groups, from your neck to your shoulders, back, calves, wrists and even your feet. Choose your ideal seat. In a Limelight® Collection spa you have a variety of choices for a complete, full-body massage.

Comfort that fits you

A better massage starts with comfortable seats shaped to fit the body's natural contours. Combined with a spacious foot well and integrated pillows, Limelight Collection seats are positioned to relieve pressure and stress. With multi-level seating, there is a comfortable spot for everyone, and a just-right place for any body's specific need.

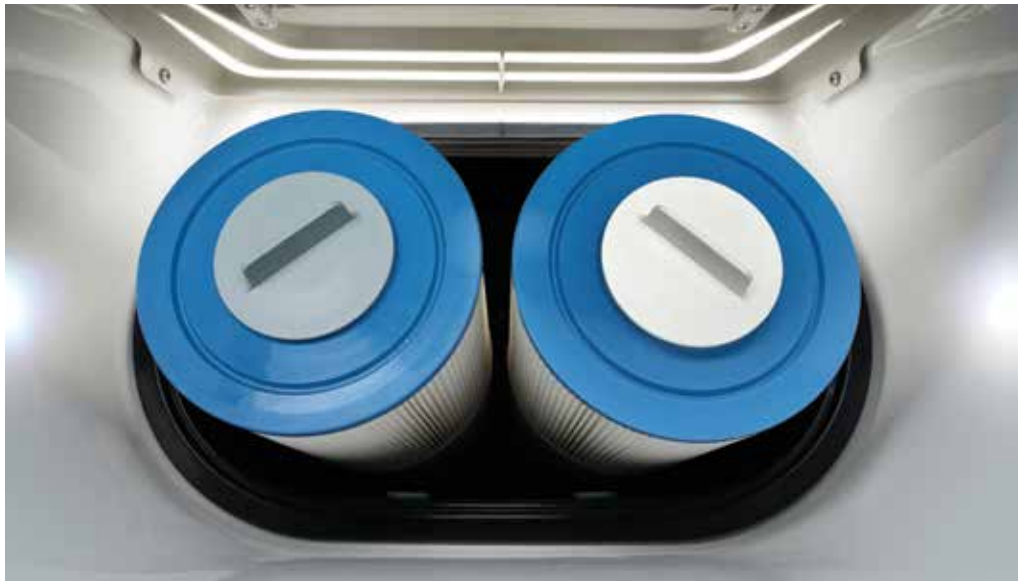
SmartJet lets you control the jet flow on and off to customise your experience.

Better Water

We make it easy to maintain fresh, sparkling-clean spa water. A variety of choices and innovative solutions allow you to pick the best system for you. Better water and easier maintenance means you will spend even more time enjoying your spa.

Dual-action filtration

2018 Limelight® Collection spas feature a unique two-filter design for more effective, constant filtration. One filter is dedicated for 24-hour filtration with the SilentFlo 5000™ circulation pump that is quiet and continuous. The other filter is dedicated to the jet pumps to clean water when you need it most. Two filters provide more total effective area to keep water cleaner with less maintenance. The simple, top-loading design allows for easy filter cleaning.



EverFresh water care system

In this complete sanitising system, three elements—ozone, silver ions, and MPS non-chlorine shock—combine to provide lasting protection, with a minimal need for chlorine.

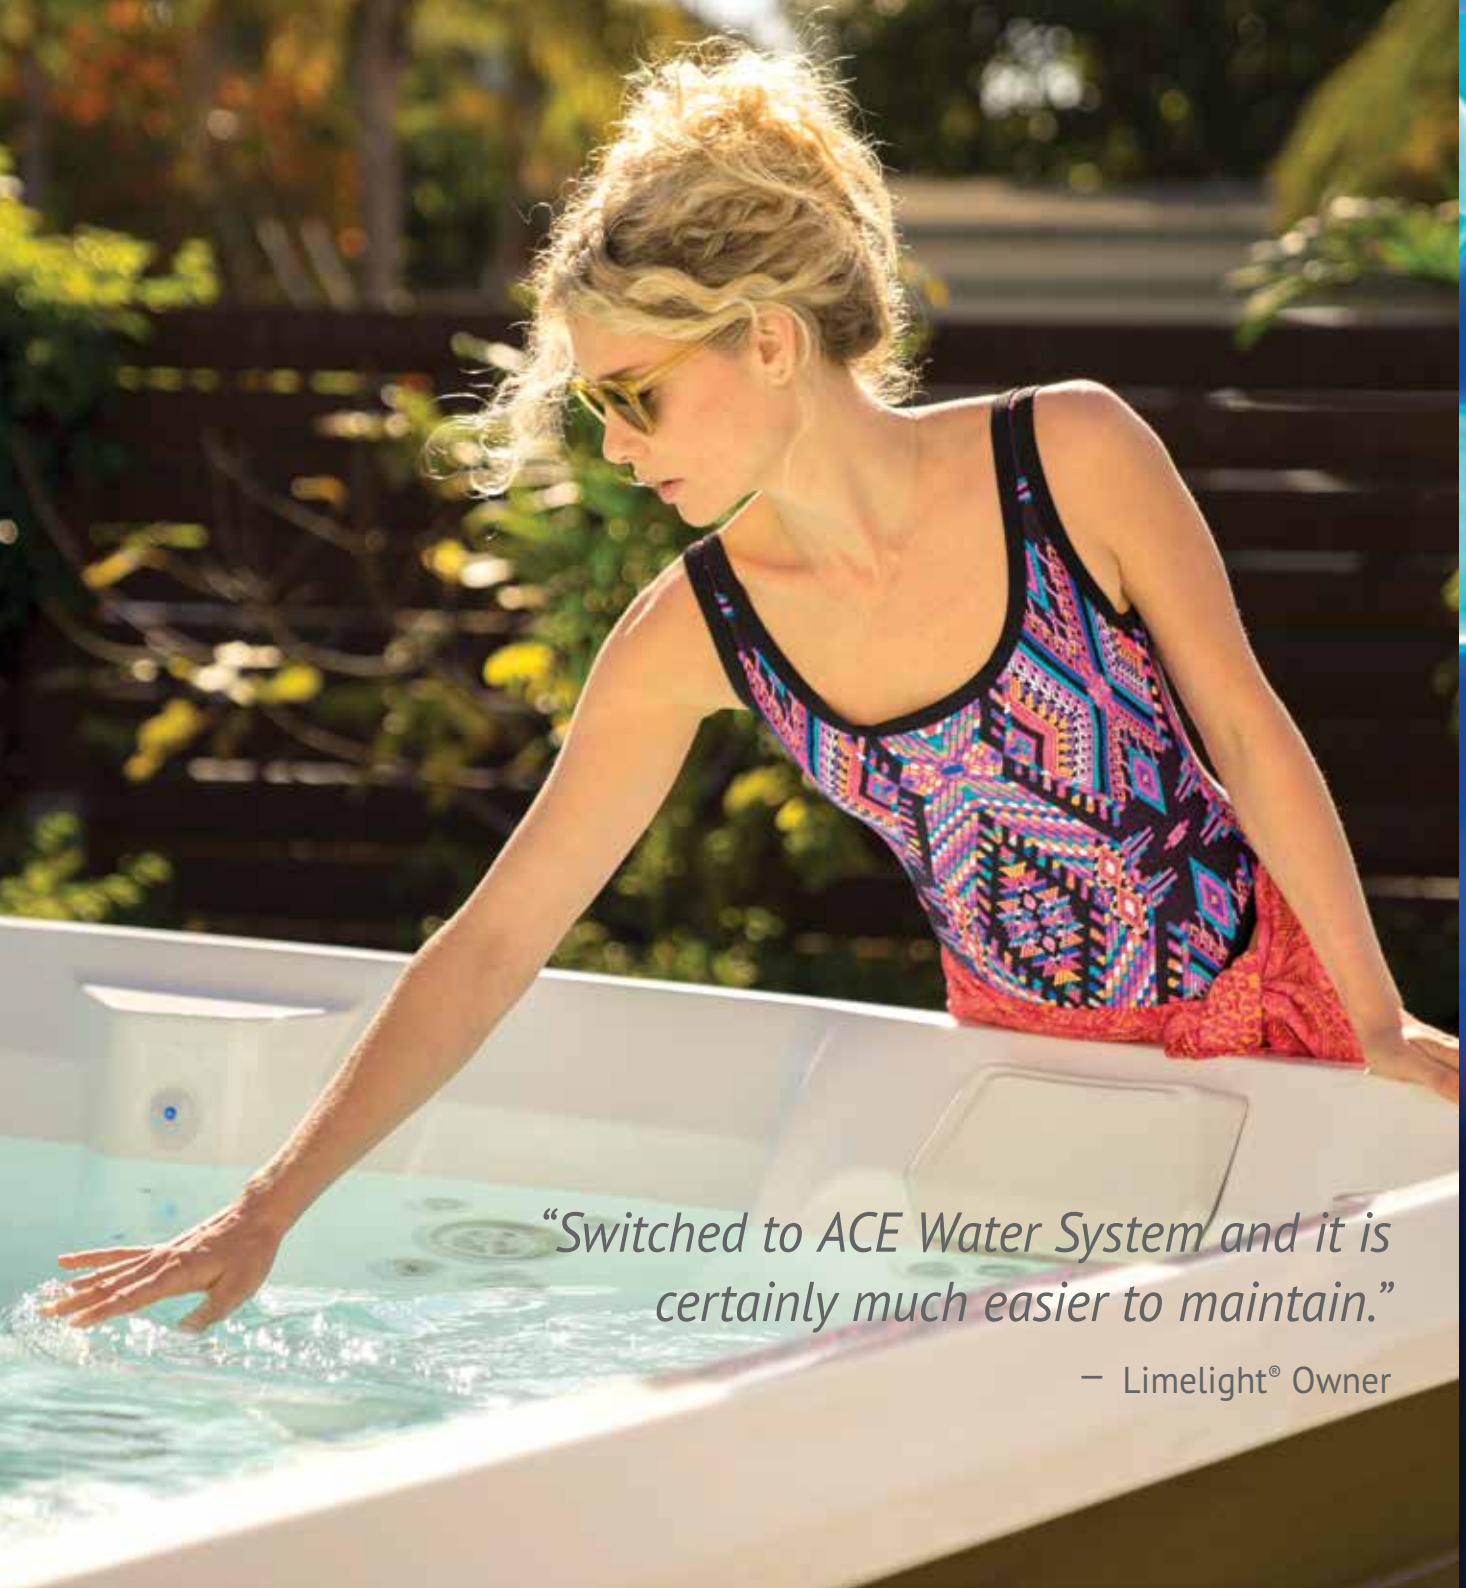
1. **FreshWater® III Ozone System**. Standard on every spa, this high-output system continuously injects millions of tiny, concentrated ozone bubbles into the water, neutralising contaminants on contact.

2. **FreshWater$_{Ag+}$™ Silver Ion Cartridge.** Optional silver ions, when combined with EverFresh™ or ACE®, provide the most effective water care to inhibit bacteria growth.

3. **FreshWater MPS Non-chlorine Shock.** Oxidises contaminants, removes odour and brightens dull water.

Exclusive ACE Salt Water System

Patented and revolutionary, our best low-maintenance water care system is optional on all Limelight Collection spas. This highly effective salt water system is a Hot Spring® exclusive that cleans the water automatically, saves time, reduces chemical use, and helps spa water last up to 12 months. With sparkling water that is ready when you are, you will spend minimal time caring for your hot tub and more time in it. Enjoy more natural spa water and soft-feeling skin with virtually no chlorine odour.



"Switched to ACE Water System and it is certainly much easier to maintain."

— Limelight® Owner

ACE Your Water Care

Only the ACE Salt Water System creates "active oxygen" and other powerful cleaners from just a little salt and your spa water, so there are fewer chemicals added. Patented diamond technology eliminates contaminants that impact water quality. The system cleans spa water automatically and generates chlorine and other cleaners for a set amount of time each day, based on your needs. Even when you are not thinking about water care, the ACE system is keeping your spa water clean.

ACE™

SALT WATER SYSTEM

Better Energy Efficiency

Hot Spring® leads the industry in engineering and manufacturing energy-efficient hot tubs. You will not have to worry about high energy bills because our spas feature a comprehensive EnergySmart™ system, which keeps the water at your desired temperature while using the least amount of energy possible.

Limelight® Collection spas feature innovative FiberCor® insulation, which fills the cabinet completely to a density four times greater than the 8 kg/m^3 foam used in most spas.

- We manufacture our spa covers to ensure a custom fit and tight seal. Dense foam insulation creates a high R-value core and a special insulating seal prevents heat from escaping at the seam, keeping energy bills low.
- Our SilentFlo 5000™ low-energy circulation pump continuously moves spa water, while using less energy to operate than a 40-watt light bulb.
- Dedicated WaveMaster™ pumps power your jets and are only activated when you need them.
- The SmartJet™ system lets you direct water to the specific group of jets you choose. This saves horsepower and energy for when and where you need it.
- We design our No-Fault™ heater to maximise the transfer of heat to the water for ultimate efficiency.
- All models feature dimmer-controlled LED lighting that uses minimal energy.

We set the standard

However you enjoy your Hot Spring spa, you can be sure it is designed to keep operating costs low. All models meet stringent California Energy Commission (CEC) standards as well as the national energy efficiency standard for portable spas, APSP 14.

"We are looking forward to the cold winter nights to sit in it. We have been looking at hot tubs for some time and decided now is the time. It was an easy buy. Thank you!"

— Limelight® Owner

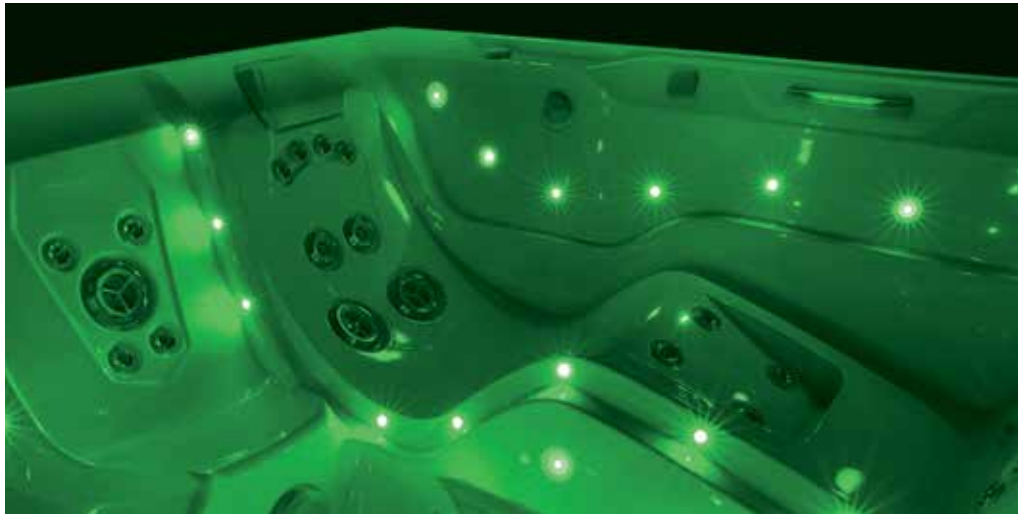
See Things in a Whole New Light

Interior lighting

The sights and sounds of moving water can be exceptionally calming and peaceful. Illuminated, water arcing into the spa adds beauty and ambiance to your experience.

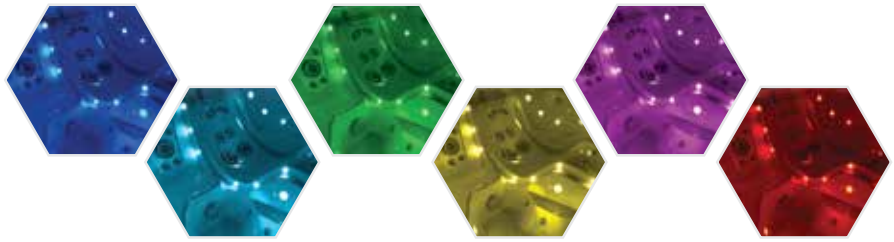
Match your mood

The interior lighting system features multiple points of light in a mix of three lens sizes placed to accent the contours of the spa shell. Match the colour to your mood by selecting the hue and brightness of your choice, or cycle through all six vibrant colours.

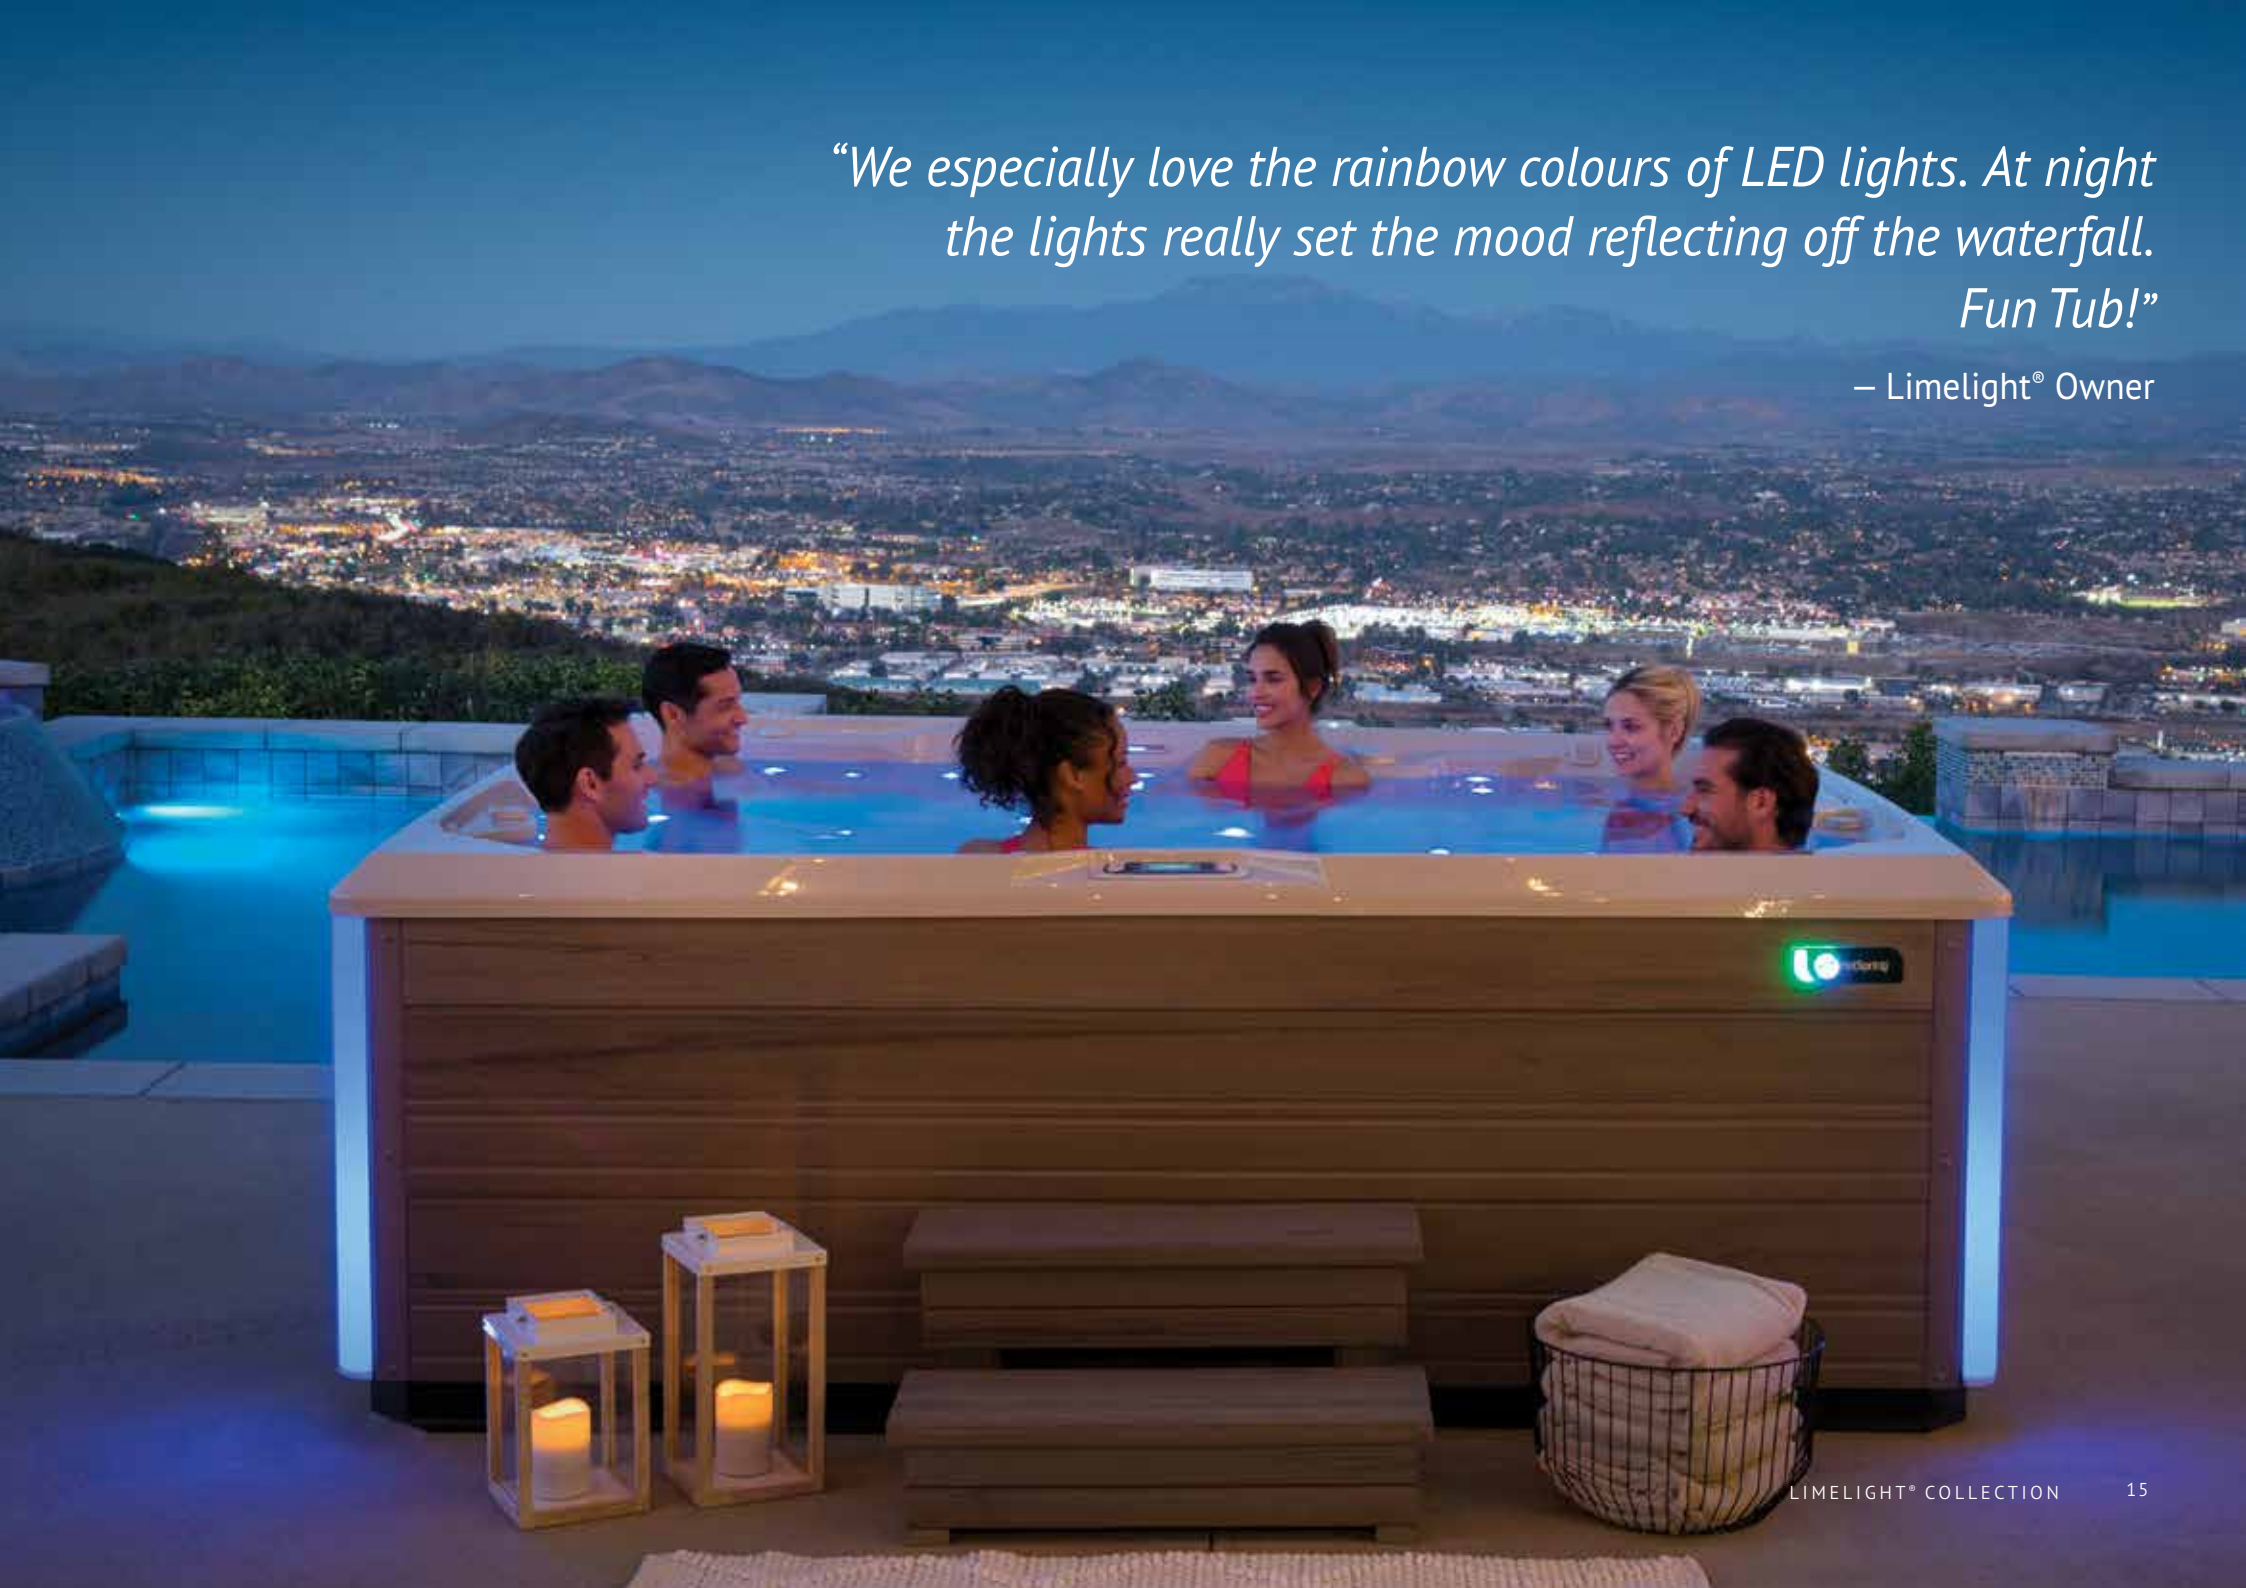


Exterior lighting

There is nothing like exterior lighting to set the scene, and the customisable LED lights on Limelight® Collection spas are best appreciated in person to experience their full dramatic impact. Two exterior lights integrate with the front corners of the spa from top to bottom, creating an illuminated and elegant look that is unlike any other. With adjustable brightness and six colour options, the multi-colour LED lighting can be set to automatically turn on for four hours each evening.



Select from six jewel-tone colours: royal, teal, emerald, gold, plum or ruby.



"We especially love the rainbow colours of LED lights. At night the lights really set the mood reflecting off the waterfall. Fun Tub!"

— Limelight® Owner

At Your Command

Smart, simple operation

Adjust the jets, lighting, wireless entertainment and more with the IQ 2020™ spa control system — no programming required. Access the main control panel from inside or outside the spa. Choose your ideal water temperature, then "set it and forget it." Even after a power outage, your spa automatically resumes normal operation to your preferred settings.

Advanced control panel

It is easy to access the spa lock function, a convenient 10-minute clean-up cycle and other features from the main control panel. Dedicated buttons for jets and lighting let you quickly adjust the features you use most.

Ready when you are

You will always know when your spa is ready—even from a distance and when the cover is on. The proprietary software works as an advanced diagnostic system. Its easy-to-see, colour-coded lighting shows at a glance when your spa is at set temperature. The logo light will indicate if it needs maintenance, a filter change or service—something you will only find in a Hot Spring® spa. It is a real advantage, especially in winter.

Green — The spa is ready to use.

Yellow — The spa is safe to use. However, an installed optional feature may need attention.

Red — Contact your dealer. Share the information on the control panel, if available, with the dealer to determine what may be needed.

"The 1st day I was already in it! Love the look of it."

— Limelight® Owner

Entertainment & Innovations

Wireless connectivity

There are so many ways to enjoy entertainment in your Limelight® Collection spa. An optional wireless entertainment system with extended Bluetooth® technology allows you to stream music live or from your playlist. Or, listen to a podcast or audio book. The system connects devices from up to 45 metres, and song titles display on the easy-to-read control panel. Order your spa with four speakers placed for optimal sound quality.

Bluetooth®

Picture perfect

Add the optional all-weather 55 cm HD Wireless Monitor to enjoy live TV, stream video and more while inside your spa or entertaining in your garden. The 1080p screen resolution delivers exceptional picture quality with anti-reflective, anti-glare coating. A monitor stand slides under the base of the spa for easy and secure installation. Add a streaming stick or connect to any in-home video source with HDMI convenience. A sturdy frame and tempered glass make this LCD monitor ideal for outdoor use. A heavy-grade vinyl monitor cover offers additional protection in a range of colours to match your spa cover.

* *Depending on ambient temperature and other factors. Ask your Hot Spring dealer for details.*

Year-Round Enjoyment

Just chillin'

With the optional CoolZone™ System, you can easily heat or cool the water—that is not possible with most spas. Enjoy a cool dip during the day, a warm soak later that night or cold-water therapy any time. The CoolZone System works with your spa heater to efficiently raise or lower the temperature in just a few hours*.

** *US Patents #8,688,280 and #8,838,280*
*** *Interface only available in English*

Peace of Mind

So connected

Are you on the go, have a second home or just want peace of mind? Connextion™ remote spa monitoring looks after your Hot Spring® spa even when you can not. This patented** technology allows you and your Hot Spring dealer to monitor your spa from anywhere, and the VirtualValet™ messaging feature alerts you and your dealer if your spa needs attention. That means regular maintenance or service can be scheduled without delay—even if you are away***.

Accessories

You will enjoy your spa more often with the added convenience provided by these Hot Spring® Necessories™. They are specifically designed for your Limelight® Collection hot tub so you can get the most out of your experience. Do not compromise your warranty or your investment by choosing other brands. Insist on genuine Hot Spring Necessories.

Convenient cover lifters

Our proprietary cover removal systems, specifically designed to work with your Hot Spring cover, make using your spa easy. These patented designs eliminate the need to drag the spa cover on and off with each use and help to extend the life of the cover.

CoverCradle

These premium cover removal systems feature a low-profile design and pneumatic gas shocks for ultra-smooth gliding that makes removal a breeze. CoverCradle™ uses dual pneumatic shocks. The CoverCradle™ II uses one gas shock. Both require 61 cm minimum clearance (actual clearance may vary depending on spa model and location).

Lift'n Glide™

It is as simple as it sounds—lift the cover, then glide it back and open for quick, convenient access to your Hot Spring spa. Requires 36 cm minimum clearance (actual clearance may vary depending on spa model and location).

UpRite

Limited clearance on your deck or in your gazebo or small patio? The UpRite™ cover lifter is ideal and provides added privacy when the hot tub is in use. Requires 18 cm minimum clearance (actual clearance may vary depending on spa model and location).

Easy access steps

Complement your Limelight Collection spa and allow for safe entry and exit.

Everwood

The Everwood™ steps are made from the same rigid polymers as your Limelight Collection spa cabinet and are available in matching Coastal Grey, Espresso or Sable cabinet colours.

Polymer

Made from durable, lightweight polymer, it is recyclable at the end of its life. Also available in matching Coastal Grey, Espresso or Sable cabinet colours.

Umbrella

Shade your spa with the 360° rotating spa side umbrella. Powder-coated aluminium and zinc-plated steel make it rust-resistant. A base plate under the spa cabinet provides stability. Available in Crème or Navy with 3 metres canopy diameter.

Towel tree

Keep your towel within reach with this easy-to-assemble towel tree. Bronze powder-coated aluminium, it makes a stylish and convenient addition to your spa.

Handrail

The handrail base plate slips securely under the spa cabinet for stability. The handrail swings in and out of your spa, so it is easy to reach upon entering or exiting. A battery-powered LED light adds convenience and safety at night.

The Absolute Best Hot Tub Ownership Experience™

We are passionate about making the world's best hot tubs and delivering an unparalleled ownership experience. Our hot tubs are consistently recognised for outstanding quality and value. Hot Spring® spas are made by Watkins Wellness®, an experienced team with an average employee tenure of more than a decade. This dedication and experience means unsurpassed quality, confidence and reliability for you and your family, and many years of enjoyment in your Hot Spring hot tub.

Your hot tub connection

We are the only hot tub brand to sell more than one million spas—that means there are more Hot Spring spas in gardens than any other brand. In fact, some families are second- and third-generation owners! We are the brand of choice, sold in all 50 states, Canada and nearly 70 other countries.

WatkinsWellness®
Feel good. Live well.™

Watkins Wellness, the leader in hot tub and aquatic fitness products, is part of MASCO Corporation, a Fortune 500 company whose family of quality home products include:

HÜPPE SHOWER AND SOUL

hansgrohe

BRISTAN
Make life easier.

We have earned SpaSearch Certification for providing a superior ownership experience every year since the award's inception in 2005.

The best hot tub retailers

When you choose a Hot Spring spa, you choose leading-edge innovation in spa features and design, as well as trained professionals. Our skilled local retailers deliver unmatched customer care before, during and long after your purchase. We have the most extensive network of genuine, passionate and helpful retailers in the industry.

A brand you can trust

For over 40 years, we have built our reputation on quality, but you do not have to take our word for it. Hear from real Hot Spring owners, people just like you at HotSpring.co.uk/Reviews.

"We use it in the morning with coffee and in the evening to relieve the stress of the day. There is no buyer's regret with the purchase of our hot tub."

— Limelight® Owner

The Limelight Collection

Contemporary style with exceptional performance

The Limelight® Collection delivers exceptional quality, beauty and performance. The spacious interiors, geometric design and multi-colour points of light accenting the sculpted shells give the spas a modern flair. You can sit back and relax in the spacious seats knowing you have chosen the best – a Hot Spring® spa built for a great massage, low operating costs, and easy maintenance. It is The Absolute Best Hot Tub Ownership Experience™.

Prism™ - Seats 7

Pulse™ - Seats 7

Flair™ - Seats 6

Flash™ - Seats 7

Beam™ - Seats 4

PRISM

Seating for 7 | 73 jets

Key Features and Options

- Lounge seat
- Adirondack-style seat
- FootStream™ XL
- 231 x 279 x 97 cm
- 1,990 litres
- Three jet pumps
- Comfort Control™ hydromassage
- Dual-action filtration
- FreshWater® III Ozone System
- FiberCor® high-density insulation
- Genuine Hot Spring® insulating cover
- ACE® Salt Water System (optional)
- Wireless entertainment (optional)

Bigger is better.

Our largest spa in the Hot Spring Limelight® Collection, the Prism™ is ideal for an active family and entertaining. With seating for seven, it features a relaxing lounge and an Adirondack-style seat with wrist, calf and foot therapy jets.

Designed for an exceptional overall massage experience, the Prism includes several directional Precision™ jets and powerful hydrotherapy jets. Its FootStream XL, found only on our biggest and best Limelight spa, delivers an exceptional foot and leg massage.

See detailed specifications for the Prism on page 36.

Prism shell shown in Ice Grey.

PULSE

Key Features and Options

- Open seating
- 226 x 226 x 97 cm
- 1,685 litres
- Two jet pumps
- Comfort Control™ hydromassage
- Dual-action filtration
- FreshWater® III Ozone System
- FiberCor® high-density insulation
- Genuine Hot Spring® insulating cover
- ACE® Salt Water System (optional)
- Wireless entertainment (optional)

Relax with the people who matter most.

Stay connected with family and friends in the Pulse™, a spacious spa that seats up to seven adults. Open and comfortable, it is an ideal conversation hub that features powerful hydromassage, with directional Precision™ jets in the foot pod, accessible from every seat.

See detailed specifications for the Pulse on page 36.

Pulse shell shown in Alpine White.

37.5C
HotSpring

FLAIR

Seating for 6 | 43 jets

Key Features and Options

- Lounge seat
- 213 x 213 x 91 cm
- 1,270 litres
- Two jet pumps
- Comfort Control™ hydromassage
- Dual-action filtration
- FreshWater® III Ozone System
- FiberCor® high-density insulation
- Genuine Hot Spring® insulating cover
- ACE® Salt Water System (optional)
- Wireless entertainment (optional)

Surround yourself with soothing jets and style.

With seating for six that includes a row of open contoured seating and a generous lounge, this popular-sized spa offers great versatility. The Flair™ features ample space and rejuvenating massage jets carefully placed to treat tension areas throughout the body. With its range of therapy options, this promises to be your go-to place for relaxing in style.

See detailed specifications for the Flair on page 36.

Flair shell shown in Alpine White.

FLASH

Seating for 7 | 41 jets

Key Features and Options

- Open seating
- 213 x 213 x 91 cm
- 1,365 litres
- Two jet pumps
- Comfort Control™ hydromassage
- Dual-action filtration
- FreshWater® III Ozone System
- FiberCor® high-density insulation
- Genuine Hot Spring® insulating cover
- ACE® Salt Water System (optional)
